MHDS Policy #5.009-Work Week, Meal Periods and Breaks

## IV. Procedures:

- I. Work Day/Work Week/Break and Meal Period
  - A. The workday may consist of different numbers of hours per day dependent upon the service needs of the program. However, no workweek will exceed 40 hours for a full-time employee. The typical workday for a full-time employee consists of two 4-hour work periods, separated by a ½ to 1-hour meal period.
  - B. A ½ to 1-hour meal period must be provided during each period of work that exceeds 6 hours. The meal period, insofar as practicable, must be in the middle of the work period. The requirement to relieve an employee for a meal period does not apply to employees who receive paid meal periods.
  - C. A rest and/or break period of 15 minutes must be granted for each 4-hour period of work, taken insofar as practicable, in the middle of the 4-hour work period. Rest periods do not accumulate; if not taken they are forfeited.
- II. Reduced Work Schedule - The Agency Director may approve a reduced work schedule for employees when it is clearly in the best interest of the agency. Employees wishing to work less than full-time (40 hours per week) must submit a written request to the Agency Director explaining in detail why they wish to reduce their working hours, how this reduction will benefit the agency, how many hours a week they intend to work and how long they wish to remain in reduced work-week status. It shall be at the discretion of the agency director to approve/disapprove requests to work less than full-time after considering such issues as benefits to the agency, current staffing patterns, scheduled vacations, workloads and whether other employees are currently on extended leave status.
- III. Shift Change - Employees interested in a transfer of shift assignments should submit a written request for such consideration to their supervisor and the agency

personnel representative. Shift changes will be subject to the provisions as stated in NAC 284.228.
